TELEPHONE INTERVIEW SUMMARY

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Further to the June 26 communication received from the U.S. Patent and Trademark Office and further to the June 30 telephone interview with Examiner Gregory, and as discussed during the June 30 telephone interview, Applicants assert that the Amendment filed April 21, 2003 was responsive to the January 27, 2003 Office Action. Specifically, page 5, paragraph II states as follows:

The Office Action rejects claim 40 under 35 U.S.C. §102(b) over USP 3,018,478 to Skillman et al. This rejection is respectfully traversed. Skillman does not disclose a radar mount direction alignment device including a signal used to align a transmit/receiver direction of a radar device. Instead, Skillman provides a radar target simulator apparatus for simulating a moving target measuring range of velocity.

Application No. 10/067,345

Thus, Applicant respectfully requests that the June 26 communication be withdrawn and the application be examined on the merits.

Respectfully submitted,
